Tomato—State Certified

Note: Certified means state certified. Keystone certified tomato seed is treated with dry new improved ceresan-packed in 1/4 lb boxes or 1 lb, 5 lb, 25 lb, or 50 lb sealed bags, at no extra charge.

Georgia Requirements: If seed is for the production of plants in Georgia, it must be certified and orders marked "For Georgia Plant Growing" and written up for us to ship direct to the Georgia consignee so that we may notify Georgia officials and comply with their regulations. Only varieties marked "GA" in the preceding list have been registered for plant growing in Georgia.

CORNELI *invites you* to **PLANT and NAME**

**this outstanding new
main crop yellow
hybrid sweet corn**

- **FREE!** a sample of seed for you to try!
- **\$100⁰⁰** Defense Bond for the best name submitted!

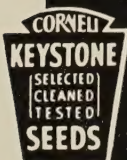

Here's a brand new variety of hybrid sweet corn. We're so proud of it that we want you to try it at *no cost!* Three years of extensive field trials on our own farms and also with market growers, shippers, canners and freezers in various sections of the United States and Canada have *proved* these outstanding features:

- High yield—two *good* ears on most stalks.
- Attractive market appearance—dark green husk and flags, white interior silks, bright yellow kernels. Husked ears 8 to 8½ inches long, with 16 rows of deep narrow kernels that are sweet and tender.
- Resistant to wind and lodging—erect stiff stalk, few suckers. Ears are well protected by tight husk with good tip coverage.
- Adapted to mechanical harvesting or easy hand harvesting, with bottom ear 28 to 30 inches high.
- Matures uniformly—permitting complete harvesting at one time.
- Good holding ability—allows several days' delay in harvesting when required because of markets or weather . . . holds quality and appearance on the market.

**Send for your FREE
